With support of:

Join us!

Be part of ICWAM 2022, the third edition of the International Congress on Welding, Additive Manufacturing and associated non-destructive testing. An event recognized by specialists in the fields as a reference addressing cutting-edge developments for the industry.

- Highlight your company at an international event gathering a community of over 300 participants and 20 countries established since 2017 in additive manufacturing, welding and non-destructive testing.
- Strengthen your relationship with Institut de Soudure and its professional network.
- Promote your company to international networks.
- Gain visibility as a key player in the highly competitive additive manufacturing sector through an event that has become a reference in the field
- Benefit from the access to the online conferences to monitor and access the latest developments in the fields covered.
